

Pre-conference Workshop, ICC2023

Visualization of Dynamic Phenomena and Processes on Web Maps and Ubiquitous Mapping (Part II)

The ICA Commission on Ubiquitous Mapping and Commission on Maps and the Internet are pleased to announce a Workshop on “Visualization of Dynamic Phenomena and Processes on Web Maps and Ubiquitous Mapping (Part II)” taking place on August 12, 2023 at the meeting room of The Westin Cape Town connected to the CTICC.

Date and Time: 14:30 – 17:00 August 12, 2023

Venue: Prince Edward/Schappen (Mezzanine floor) in The Westin Cape Town

The goal of this workshop is to share and discuss different ideas around the topics of visualization of dynamic phenomena and processes on Web Maps and ubiquitous mapping.

Tentative programme is as follows:

- 14:30 Arrival and registration
- 15:00 Welcome and introductions
Yoshiki Wakabayashi, Chair of the Commission on Ubiquitous Mapping
- 15:10 Build Maps in Idproxy – an OGC API Features implementation
Sverre Iversen (Geological Survey of Norway)
- 15:30 Concept Design of Generative Location-based Audio Tours
Iori Sasaki, Masatoshi Arikawa, Tomokazu Tamura, Min Lu, Ryo Sato, and Tomihiro Utsumi (Akita University)
- 15:50 Elements of “dynamic” in Ubiquitous Mapping
Takashi Morita (Hosei University)
- 16:10 Rethinking map literacy in the age of ubiquitous mapping
Yoshiki Wakabayashi (Tokyo Metropolitan University)
- 16:30 Discussion
- 17:00 End

Participation is free but the capacity of the venue is limited. If you are interested in joining the workshop, please register your participation by sending your personal information (name, affiliation, and country) to the website below:
